**Saturday Night** Partly cloudy, with a low around 31. Calm wind.

## **Air Quality Alert**

253 PM PST Mon Nov 2 2020

The San Joaquin Valley Air Pollution Control District is extending an Air Quality Alert on November 02, 2020, due to smoke impacts from the Creek Fire and SQF Complex Fire, for San Joaquin, Stanislaus, Merced, Madera, Fresno, Tulare, Kings, and Valley portion of Kern Counties. The Mariposa Pollution Control District is also issuing an Air Quality Alert through Thursday due to smoke.

This Air Quality Alert is in effect until the fires are extinguished.

Exposure to particle pollution can cause serious health problems, aggravate lung disease, cause asthma attacks and acute bronchitis, and increase risk of respiratory infections.

Residents are advised to use caution as conditions warrant. People with heart or lung diseases should follow their doctor's advice for dealing with episodes of unhealthy air quality.

Additionally, older adults and children should avoid prolonged exposure, strenuous activities or heavy exertion, as conditions dictate.

For additional information, call your local San Joaquin Valley Air District office. Modesto 209-557-6400, Fresno 559-230-6000, Bakersfield 661-392-5500

Residents can also follow air quality conditions by downloading the free Valley Air app, available in the Apple store or Google Play.
