Are you planning a romantic spring, summer or autumn special event, such as a destination wedding, engagement, bachelorette or anniversary party, or even a family affair, such as a major milestone birthday, graduation, Christening or gender reveal party? Maybe a corporate executive retreat, sales or strategy meeting, employee reward program or team building weekend is on the agenda for 2023? The Murphys region, spanning California State Route 4 from Angels Camp to the beginning of the Ebbetts Pass Scenic Byway in Camp Connell, offers numerous special event venues and banquet facilities, from vineyards to historic boutique properties, as well as savvy caterers and event planners who will help you design your memorable affair set against the awe-inspiring backdrop of the Mother Lode's Sierra Foothills.

And when is the best time to do your research and plan for your warm weather season Murphys wedding or affair? During the winter off-season when tourist visitation is at a lull during the Valentine's Day Weekend of February 11 and 12, 2023, that's when.

Perhaps you'll find that special Valentine's Day memento of heartfelt significance for that magnificent suitor who continually makes your heart skip a beat.

ABOUT MURPHYS: Crowned the Queen of the Sierra, Murphys feels as if it was lifted from the celluloid of a major motion picture, transported to a magical place under the canopies of soaring ancient big trees and delicately nestled in the Sierra Foothills. Deemed one of the “8 California Small Towns to Visit Right Now,” by the San Francisco Chronicle, Murphys (located in Calaveras County), is an unrivaled and incomparable historic Gold Country town nestled in the Sierra Foothills a mere 2.5 hour drive from San Francisco or San Jose and 1.5 hours from Sacramento.

Once you park your car, Murphys truly is a fully strollable town with fine dining, historic attractions, boutique shopping, bars, bistros, bakeries, a beer garden, numerous live music options, and, arguably, one of the greatest concentrations of wine tasting rooms in California, if not the United States (25 tasting rooms representing 30 labels, at last count), all of which line the quaint, serene and inimitable half mile long Main Street. There are an additional 9 wineries and tasting rooms all within 1.5 to 5 miles driving distance from the center of town.
