COMPACT MISSION

The Madera County Compact is a coalition of business leaders, community leaders and education leaders working collaboratively to support efforts to improve the quality of life in Madera County. The Compact promotes business partnerships with schools to improve the achievement levels and skills of students and prepare young people for the increasing demands of society and the workplace.

BUSINESS & EDUCATION

Each year school administrators are encouraged to nominate businesses in Madera County that have a strong partnership with schools. Winners are presented with the Crystal Tower Award at the Annual Compact Luncheon in August. The Compact recognizes those businesses that are making a difference in the lives of students and enabling educators to provide students with the best possible resources for career exploration in Madera.
